

Institutional Membership Scheme

Australasian Society for Computers in Learning in Tertiary Education

ASCILITE's Institutional Membership Scheme reduces costs to institutions that currently pay for a number of individual subscriptions and unlocks a range of benefits not available with an individual membership.

To become an institutional member, an institution nominates a set number of individual staff members under the membership and provides the contact details of these individuals to ASCILITE that will be added to the ASCILITE membership database. During the term of the institutional membership, an institution may change individual members at any time so long as it does not exceed its membership quota.

ASCILITE has four categories of institutional membership to choose from, each with a different number of staff that may be nominated:

- Bronze (10 members)
- Silver (20 members)
- Gold (25 members)
- Diamond (Unlimited number of staff)

In addition to these four categories of membership, an institution selects either an annual membership or a 3 year membership. To qualify for this scheme, all nominated staff covered by an institutional membership subscription must be staff or students of the institution.

Institutional Membership Fees¹

10 Members ²	20 Members ²	25 Members ²	Unlimited Members
1 year membership			
\$1,300	\$2,600	\$3,125	\$5,500
3 years membership			
\$3,840	\$7,500	\$9,000	\$15,000

¹ Fees are inclusive of GST where applicable. Payment may be made by direct deposit or credit card (surcharge applies for cc payments but there is no surcharge for EFT transactions (details are included on invoices). ² Quota may be increased by 5 members at the same pro-rata individual rate but only if the additional members are added as a block of 5 members at one time.

Benefits in Different Categories

ASCILITE Individual Membership Benefits

All membership benefits available to individual members are also available to institutional members.

- Participation in an international community of experts and professionals in the educational use of technologies through conferences, newsletters and community events
- Participation in special interest groups and communities of practice.
- Discounted registration to the highly acclaimed annual ASCILITE Conference.
- Eligibility for entry to the prestigious annual ASCILITE awards for exemplary use of educational technologies in tertiary education.
- Increased exposure to ASCILITE conference papers through open access proceedings.
- Increased exposure to refereed open access journal articles through ASCILITE's highly regarded Australasian Journal of Educational Technology.
- Eligibility to participate in the Community Mentoring Program.
- Participation in CMALT, a unique professional accreditation scheme with group discounts available to institutions.
- Access to ASCILITE's regular bulletin with information on national and international events, initiatives, funding and job opportunities.
- Participation in TELAS with discounts to members to attend Peer Review Workshops and priority given to members to enroll as Certified Reviewers.

Terms & Conditions

- Workshop scheduling is subject to facilitator availability although ASCILITE will endeavour to schedule workshops on the institution's preferred date and time.
- Where a workshop is presented face-to-face, ASCILITE will cover all facilitator travel expenses in relation to TELAS and CMALT workshops while the host institution is responsible for workshop venues and catering.
- Full conference registration must accompany any complimentary pre-conference workshop registration with regards to the annual conference.
- Pre-conference workshop registrations may not be deferred to another year but are available to any staff member at the institution and not just the nominated institutional members within the quota of the institutional membership.
- While ASCILITE will endeavour to offer the institution its preferred year to host the Annual Spring into Excellence Research School, it cannot guarantee that the institution's preferred year will be available.
